FOR THE TOUGHEST JOBS OUT THERE... TRUST NONE OTHER THAN THE **ORIGINAL** GORILLA!

WHY CHOOSE THE **TOUGHEST** TAPE ON PLANET EARTH?

Duct tape is made for smooth, even, predictable surfaces. How many of your projects can be described that way? That's why there's Gorilla Tape, to us, it's made the way tape should be: The Toughest on Planet Earth®. Gorilla Tape offers over the top results with its heavy-duty, double-thick duct tape. It is made to stick to rough, uneven, unforgiving surfaces like wood, stone, stucco, plaster, brick and more.

DOUBLE-THICK ADHESIVE - Grips smooth, rough & uneven surfaces

HEAVY-DUTY CLOTH BACKING - For added strength & heft

RUGGED OUTER SHELL - Withstands moisture, UV rays and temperature extremes better than other tapes

120V/277V & WEATHERPROOF (NO ADDITIONAL ENCLOSURE NECESSARY!)

NOW STOCKING! L12V60UNV-Q CAN DRIVER

WHAT IS IT?

Universal's new Q-Can driver is designed to simplify installation and provide long dependable life in tough applications. The 12V LED driver with a 60W class 2 output is designed specifically for demanding outdoor signage applications.

The Q-Can comes with threaded adapters that allow connection to junction boxes either directly with couplers or through sections of conduit. This keeps all the electrical connections enclosed to comply with code requirements and eliminates the need for additional enclosures. The jacketed 60" output cable provides additional installation and application flexibility.

With its corrosion resistant **aluminum** housing, the Q-Can meets UL's requirements for dry, damp, and **wet location ratings**. Additionally this LED driver meets IP67 for liquid and solid ingress protection.

Can be used with any of your existing LEDs!

INTERMEDIATE SATIN VINYL

Series 4500 / 4550 - Intermediate - Satin (3 mil / Up to 6 year)

Series 4500 / 4550, CalPlus is a 3-mil (75 micron) calendered film that is ideal for a wide variety of applications. The unique adhesive system used on CalPlus allows good bonding on most banner materials, even where high plasticizer levels are present. The satin finish also works great on most interior & exterior applications too! The balance of CalPlus allows you to work quickly without extra attention to weeding of smaller characteristics. CalPlus comes in 29 eye-catching colors and has an outdoor durability of 6 years.

NOW STOCKING:
NEW LIGHT ENHANCEMENT
#2447 CAST WHITE ACRYLIC
40% MORE LUMEN OUTPUT THAN STANDARD #7328 ACRYLIC!

FOR LED CHANNEL LETTERS
THE CHOICE IS OBVIOUS.
Now Stocking 4' x 8' x 3/16"

The test above was completed at NEPCO Products in February 2012 using a calibrated luxmeter (with grey survey scope), we measured the actual transmitted lumens of two separate white LEDs through two types of white acrylics. The LED light source for each product was one foot of fresh product. Each of the two above displays were identical in depth, width & height.

*This item has NOT been tested to determine how #2447 Acrylic performs in illuminated sign boxes utilizing high output fluorescent lamps.
